

MUHAMMAD SHAHZAD KHADIM

Cybersecurity Researcher | Junior Cybersecurity Analyst | Web & API Security | MSc
Cybersecurity Applicant

Pakistan | Phone: +92 3188149647 | Email: studyofficial257@gmail.com

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFILE

Computer Science graduate and cybersecurity-focused MSc applicant with a direct web/API security trajectory: BS CS from KUST, 33 months as Junior Cybersecurity Analyst, OWASP-aligned penetration testing and remediation reporting, one published cybersecurity article with DOI, two manuscripts under review, Open Doors Runner Up diploma, Ufa Information Security Olympiad winner, Rudn University Olympiad Winner verified cybersecurity credentials, and reproducible GitHub security projects.

EDUCATION

Degree	Institution / Period	Result
BS Computer Science	Kohat University of Science and Technology, Pakistan 25 Oct 2021 - 21 Oct 2025	CGPA 3.33/4.00; 3207.74/4100; 78.24%; English medium
F.Sc Pre-Engineering	Karwan Model College, Kohat 2018 - 2020	899/1100; English medium
SSC Science	APSACS, Kohat 2016 - 2018	812/1100; English medium

Relevant coursework: Information Security, Network Security, Web Engineering, Computer Networks, DBMS, OS, Software Engineering, DAA, AI, cryptography-related foundations and Final Year Project.

PROFESSIONAL EXPERIENCE

- Junior Cybersecurity Analyst - Dev K System Software House, Pakistan | 01 Jul 2023 - Present | confirmed approx. 33 months | Supervisor: Kashan Afzal, CEO.
- Web penetration testing, OWASP vulnerability identification, SQLi/XSS/access-control/authentication/session issues, reporting, remediation guidance, verification notes, network/firewall/Active Directory support and application hardening.

RESEARCH PUBLICATIONS & MANUSCRIPTS

#	Publication / manuscript	Venue / status
1	AuthStateBench: A Standards-Aligned Benchmark for Stateful Authorization and Authentication Workflows. DOI: 10.53762/grjnst.04.02.27 DOI link: https://doi.org/10.53762/grjnst.04.02.27	Published: GRJNST, 4(2), Article 2076, 29 Apr 2026
2	TrustBound-ASVS: A Standards-Aligned Taxonomy for Human-Governed AI Assistance in Web Application Vulnerability Remediation	Under review: Journal of Engineering and Applied Science; ID JEAS-D-26-02003
3	PatchGuard-Web: A Reproducible Lab-Based Framework for Detecting Security Regression Risks After Remediation of Web Application Vulnerabilities	Under review: Journal of Engineering and Applied Science; ID JEAS-D-26-01994

MAJOR CYBERSECURITY & SOFTWARE PROJECTS

Project	Focus / evidence	Link
APIFlowGuard-Lab	REST API security benchmark; 30 controlled scenarios; 60 vulnerable/fixed JSON evidence files; CSV summary; ZAP/scanner-comparison workflow; OWASP API Top 10/ASVS/WSTG/CWE/NIST SSDF mapping.	Repository

SecureAPI-Gate	CI/CD security regression gate for REST APIs; OpenAPI/Postman parsing; policy/scoring; 45 default scenarios; JSON/CSV/HTML evidence; React/Vite dashboard; GitHub Actions/Docker Compose.	Repository
Emergency Care - FYP	Application development + security testing; authentication/session testing; SQLi/XSS remediation; secure design for sensitive workflows.	Repository
SmartTask	Web task manager with TypeScript/React-style stack, authentication, RBAC, progress tracking, database logic and responsive UI.	Repository
Complete Portfolio	React, TypeScript, Vite, Tailwind CSS, Lucide icons, responsive portfolio and Vercel deployment.	Repository
SecureAudit / VulnTrack	Web penetration-testing projects using Kali Linux, Burp Suite, Nmap, Metasploit, SQLmap and OWASP methodology; reports, remediation guidance and re-checking.	-
SIoT-ZKTrustNav	Research prototype for privacy-preserving SIoT navigation; trust-aware route evaluation; ZKP proof workflow; lightweight DLT audit logging; NS-3 traces, attack-mode analysis, descriptive metrics and reproducibility package.	Repository
Zevorqa Shield	SaaS-style website security posture report generator foundation; Next.js/TypeScript/Tailwind UI; dashboard layout, pricing/sample report/login/signup pages; safe scan boundary for headers, HTTPS/TLS, email security checks, OWASP mapping, risk scoring and PDF-report workflow planning.	Repository
AgentShield-Lab	AI/RAG/Agent security testing lab; 30 reproducible scenarios; vulnerable vs secure agent comparison; FastAPI backend, React/Vite/Tailwind dashboard; JSON/CSV/HTML evidence reports; OWASP LLM, MITRE ATLAS and NIST AI RMF mapping.	Repository
SupplyTrace-VEX	Software supply-chain vulnerability prioritization artifact; SBOM evidence, OSV/Trivy/Grype/npm audit/pip-audit scanner adapters, static reachability analysis, contextual risk scoring, VEX-style status reports and evaluation metrics.	Repository

AWARDS, OLYMPIADS & TESTS

- **Open Doors / Global Universities Association** - Diploma of the Runner Up, Master's Track: Computer and Data Science;
- **Ufa University of Science and Technology - Winner**, IV All-Russian Olympiad with international participation; Information Security profile; Ufa 2026; existing notes: Top 27.
- **Rudn University Olympiad Winner**
- **Academic research achievement** - AuthStateBench published with DOI in GRJNST, 29 Apr 2026.
- **GAT/GRE General Test**, Computer Science - KUST MS/M.Phil test held 24 Sep 2025; 62/100; Pass.

VERIFIED CERTIFICATIONS & TRAINING

Date	Provider	Credential / course	Verification
25 Feb 2026	EF SET	EF SET English Certificate - 77/100 C2; Reading 99 C2, Listening 44 B1, Writing 97 C2, Speaking 69 C1	Verify
10 Mar 2025	Google	Foundations of Cybersecurity	Verify
14 Apr 2026	Google	Play It Safe: Manage Security Risks	Verify
14 Apr 2026	Google	Tools of the Trade: Linux and SQL	Verify
15 Apr 2026	Google	Assets, Threats, and Vulnerabilities	Verify
14 Apr 2026	Google	Connect and Protect: Networks and Network Security	Verify

10 Mar 2025	Cisco Networking Academy	Ethical Hacker	Verify
10 Mar 2025	Cisco Networking Academy	Network Support and Security	Verify
23 Oct 2025	Cisco Networking Academy	Junior Cybersecurity Analyst Career Path	Verify
17 Apr 2026	Cisco / Python Institute	Python Essentials 1 / Python Programming	Verify
24 Oct 2025	Cisco Networking Academy	Introduction to Data Science	Verify
17 Apr 2026	Cisco Networking Academy	Data Science Essentials with Python	Verify
16 Mar 2026	Zynex Solutions	Ethical Hacking & Offensive Security / Intensive Ethical Hacking Course; Certificate ID 25-2370-0193	Verify

TECHNICAL SKILLS

Web/API security: OWASP Top 10, OWASP API Top 10, BOLA/IDOR, BOPLA, BFLA, broken authentication, session lifecycle testing, business-flow abuse, API inventory exposure, unsafe third-party API consumption, access-control testing and secure remediation validation.

Tools/development/evidence: Kali Linux, Burp Suite, Nmap, Metasploit, Wireshark, Hydra, SQLmap, OWASP ZAP, Cisco Packet Tracer, pfSense, Windows Server/AD, Linux, Node.js, Express, MongoDB, Mongoose, JWT, bcrypt, express-validator, helmet, cors, REST APIs, RBAC, Jest, Supertest, JSON/CSV evidence, HTML/CSS/JS/TS, React, Vite, Tailwind.

Standards/frameworks: OWASP ASVS 5.0, OWASP WSTG, NIST SSDF, MITRE CWE, CVSS v4.0, CISA Secure by Design, OAuth/OpenID security references.

ENGLISH, LEADERSHIP, SEMINARS & REFERENCES

Languages/tests: Urdu native; English academic/professional working proficiency; EF SET 77/100 C2; GAT/GRE General Test 62/100 pass.

Leadership/community: Cybersecurity Mentor volunteer for 10+ students; Open Source Contributor - cybersecurity projects; Community Cybersecurity Support Initiative - free vulnerability assessments and OWASP-aligned recommendations for local small businesses/websites.

Seminars: Cybersecurity Awareness Seminar; Web Application Security and OWASP Top 10 Seminar; Emerging Trends in Computer Science and AI Seminar.
